

YOLO COUNTY DEMOCRAT.

SATURDAY, JANUARY 30, 1893.

L. P. FISHER, 30 and 31 New Merchant's Exchange, is our authorized agent in San Francisco. For Eastern Advertising, Mr. Fisher is represented by S. M. Pettengill & Co., of New York and Boston.

Hudson & Menet, 41 Park Row, New York, sole agents for the DEMOCRAT in the Eastern States.

ABOUT TO RETIRE.—President Johnson's term of office has almost expired and in a little more than one month he will doubtless feel greatly relieved in retiring from a position which has by no means been a sinecure. In the performance of his duties he has been the object of more unjust criticism and personal abuse than any of his predecessors. Whatever may have been his faults, he is deserving of the respect of all fair-minded men for his unflinching devotion to the Constitution, in the face of the storm of threatenings and abuse hurled upon him by fanatics during the latter part of his term. His fawning flatterers, who, failing to make him their pliant tool, became his unprincipled enemies, will doubtless rejoice when the last day of his administration arrives. His pleasure on that occasion will doubtless be of a purer character. He can afford to forgive his unscrupulous enemies whose lives, like their fiftal passions, will pass away to be forgotten, while he will enjoy the respect of his countrymen for having held the destroyers of liberty at bay in an evil hour.

GOOD APPOINTMENT.—Governor Haight is applauded on all hands for his good judgment in appointing A. C. Adams, Esq., of Mokelumne Hill, to fill the District Judgeship made vacant by the resignation of S. W. Brockway. Although Mr. Adams is a Democrat, and Judge Brockway was elected as a Republican, we will venture the assertion that the people of his District will never have occasion to accuse him of soiling the ermine with politics. It is but simple justice also to say that Judge Brockway, while on the bench, stood very fair in this respect, and retired from his position with many a friend among both political parties.

A PIOUS THEFT.—A clergyman of Somerville, Massachusetts, named I. W. Sine, was recently detected in stealing two valuable books from a book store in that place. An examination of his house revealed a large number of stolen volumes, which were identified by their owners. The hypocritical scoundrel was taken into custody. It is to be hoped that he may receive punishment appropriate for one who would thus bring reproach upon the high calling he professed to honor.

SAN FRANCISCO HERALD.—We have received the first number of the San Francisco Herald, (new series.) John Nugent is chief of the corps editorial. The paper is neat and tasty in its typographical appearance, containing able written and interesting editorial matter, and is replete with important news items. We wish it success.

POSTPONED.—The earthquake predicted by "Caxton," which was to have made itself felt on Wednesday last, was postponed for some reason not explained. The changeable weather experienced during the week may have had some connection with the affair. It is too bad to be disappointed even in the enjoyment of an earthquake.

BIBLE SOCIETY.—A county Bible Society has been organized in Sacramento county, having for its object "the circulation of the Holy Scriptures, without note or comment, in the commonly received version." Life members are admitted on payment of twenty dollars.

HEAVY SWINDLING.—A correspondent of the New York World estimates that the people of the metropolis are swindled out of fifty-four million dollars every year in the purchase of food by reason of false weights used by the grocers of that city.

ORANGES.—The finest specimens of oranges are grown in the vicinity of Oroville. This fine fruit comes to perfection in all parts of the State except the extreme northern counties.

FROZEN TO DEATH.—A man was recently frozen to death in the vicinity of La Porte. He had by his side, when found, two bottles of whiskey and forty pounds of provisions.

AHEAD OF TIME.—The eclipse of the moon on Wednesday night came off at an earlier hour than was announced by several of our exchanges.

STATE CAPITOL.—The new State Capitol at Sacramento is approaching completion. The building will be ready for occupation by the next Legislature.

SMALL-POX.—Nine new cases of small-pox were reported at the health-office, in San Francisco, on Thursday last. The disease is said to be abating.

GRAIN MARKET.—Wheat is quoted in the San Francisco market reports at from \$1.70 to \$1.75. Barley, \$2.15 to \$2.30. Oats \$2.10 to \$2.25.

PROSPECT FOR A HEAVY HARVEST.—In many parts of the State the farmers are sowing more grain this season than ever before.

DEATHS.—In San Francisco eighty-two deaths occurred last week, thirteen of which were caused by small-pox.

SHOES.—In the factories of North Adams, (Mass.) 300,000 pairs of shoes have been made during the past year.

STREET RAILROADS.—The Vallejo Recorder favors the construction of street railroads in that city.

Political Principles.

Whatever may be said against the detestable principles of the late Radical party, it cannot be denied the possession of at least one element upon which mankind look with a certain kind of respect—the element of a sweeping irresistible strength, tremendous in its sinister magnificence. This strength was watched by European powers with more fear and respect than was shown by the Democratic minority who looked upon it with the calm, unquelling daring of conscious right, and though overwhelmed by it, rose again to organize for that day of political resurrection which is surely dawning. Today, we—the Democrats—are prouder of our political record, more hopeful of our future, than the party which by the figures and election returns is ranked as the dominant party, for the so-called Republicans feel to-day that in ignoring their political principles, and calling upon Grant to save them, regardless of the disintegration which as surely follows the abandonment of principle as decomposition of the body follows the loss of vitality.

Grant says that "the will of the people is the law of the land." The next question is, who is to interpret that "will?" and the answer is: the Radicals have appointed Grant the prophet of this new political religion, and have no right to object to his interpretations. They practically admit the fact, for when he tells them to release the Presidential office from the manacles they have imposed upon it, Congress—the late arrogant Congress—that had assumed all the powers of the Government, complacently and promptly repealed the Tenure of Office Act, and now stands crouching waiting the further orders of the President elect. They want to know what further acts of subservient and prompt obedience "the will of the people" requires at their hands.

You went into the last campaign, Messrs. Radicals, with a most dubious platform, and you did not dare require your leader to commit himself to a single plank of it. Your batteries were masked and your champion was clad in the double impenetrability of an armor of reticence and tobacco smoke. He said nothing for our ears, while he smoked our eyes past seeing, but our senses were never once during the campaign so destroyed and deceived as were yours.

We give you till the fourth of March to fill your wallets and prepare to strike tents.

NEW LIFE INSURANCE COMPANY.—A number of prominent citizens of Sacramento have recently organized a life insurance company on a plan entirely different from that upon which most organizations under the same name are founded. It has decidedly the advantage over many other companies in the manner of its business transactions, which can easily and readily be understood by all. The name adopted by the society is "The Sacramento French and International Mutual Life Insurance Company." All residents of California, without distinction of sex or nationality, of sober habits and enjoying good health, may become members of the society, by paying an admission fee of \$2.00. A small subscription from each member, annually, will be required entitling the subscriber to the full benefits of the organization. At death the widow or heirs of the deceased member are to receive a capital equal in value to the number of members in the association at the time of death. F. Chevalier has been elected president of the society. The list of trustees and directors comprise a number of well known and responsible citizens of Sacramento. Hon. A. Comte, Jr., a gentleman of recognized legal ability has been appointed attorney for the society, and, in fact, the association seems to have been prudent in the adoption of every measure in its organization best calculated to insure its future success.

YOLO DEER.—One has only to make a trip to the Yolo side of the river to see how hackmen earn their money. The surrounding of the platform whereon the Vallejo passengers land might be very easily mistaken for a fair-sized country duck-pond, to one unacquainted with the nature and size of the mud holes sported by our Washington neighbors. It must be fun for man and horse to wait in the slush for the arrival of the train with the chances of getting "that passenger." We heard of a case wherein a hackman, after waiting some three hours, was charged a very able individual five dollars for landing him in this city, over which much ado was made by his highness. We imagine if the horses had had the say the price would have been doubled.—[Record.]

Be patient, Mr. Record! Don't complain of your neighbor's misfortunes. Your own Sacramento might once have been mistaken for a "country duck-pond," and the same spirit of indomitable enterprise which characterized her citizens in rearing Sacramento to her present proud position will one day develop itself in placing Washington above high water and the sneers of her pretentious rival.

A RADICAL PHILANTHROPIST.—The Troy Times says that a very loyal and pious editor in Troy, New York, whose sympathies have been always moved in behalf of the suffering negro, has suffered his own father to die in an Iowa poor-house, without sending him the aid he was amply able to furnish. The poor old man had the misfortune to be white. The Times says if the brute denies it, it will publish his name.

HEFTY.—The Jacksonville (Ill.) Sentinel, of December 26th, says: "A farmer in this vicinity recently killed a fine hog, weighing 286 pounds, from whose stomach were extracted thirty-six ten-penny nails, half of a file and a suspender buckle. The metal was much corroded."

GENERAL COLOR and wife, of tragic renown, dwell happily at Trumansburg, New York. Not even Hisscock's ghost disturbs the peace of the family circle.

WHEN PINK IS RICH.—It is even said to be lousy.

REALIZING THE SITUATION.

The Marysville Appeal seems of late to have awakened partially, at least, to a sense of the flagrant corruption of the Radical party. That party, of which the Appeal is an organ, has become notorious for its utter disregard of moral principles in political affairs, and it is not surprising that some of the Radical papers should occasionally indulge in a criticism of the moral status of their party. The Appeal says: "All parties will be corrupt so long as the immoral idea prevails that everything is fair in politics. We cannot understand why politicians should not be expected to be as honest and honorable as people who follow business pursuits for a vocation. Nothing discreditable ought to attach to a politician, *per se*. Politics, as a profession, ought to be conducted on as high moral principles as the law, merchandizing or the trades. Our country is enlarging and public officers are multiplying rapidly. Can a system of government stand long where there is such a large per cent. of office holding politicians, all working under the motto that it is not morally dishonest to be politically dishonest? Will not this dishonesty, in due time, corrupt the mass? Have not the people already breathed the miasma of political dishonesty until they are tainted with political disease? There is law to punish every man for stealing, or obtaining property by fraud; and is the obtaining of money through office, secured by trickery and dishonesty, any less a crime?"

Certainly not; we hope the Appeal will continue to expose political dishonesty, even if it should be read out of its own party without the privilege of admission into one more respectable.

WANTS A PENSION.—The widow of Abraham Lincoln is demanding a pension at the hands of Congress. She says her financial means do not permit her to live in a style becoming the widow of the Chief Magistrate of a great nation. Unfortunately, her extravagant follies have not been becoming to one occupying her position, and however desirous the American people may be to supply the wants and sustain the dignity of a widow of an ex-President, it is very questionable whether Mrs. Lincoln's petition should be heeded. If Congress sees fit to grant her a pension, the same charitable feeling that prompts such an action should induce the same body to appoint a guardian for the lady.

CLAMORING FOR SUFFRAGE.—Negroes in Pennsylvania and other States, not understanding the philosophy of the Radicals in extending the right of suffrage to their brethren in the South, and denying them the same privilege, are demanding at the hands of their white "friends" the right to equal favors.

CLOSING THE GAP.—The Union Pacific and the Central Pacific Railways are rapidly approaching a point where they will meet, thus forming a continuous rail communication from the Atlantic to the Pacific. At last accounts the gap between the two tracks traversed by stages was but 210 miles.

OUTRAGED.—On Sunday last two boys, each about 18 years old, indulged in a brutal prize fight, near San Francisco. The disgraced affair was witnessed by a number of men, women and children. San Quentin is the proper place for such worthies to exercise their muscle.

CALIFORNIA WINDS.—A scientific exchange says: "The winds of California obey the same natural laws which rule in other localities, and possess no peculiar features of their own, what would obtain in any country similarly placed as respects geographical and physical circumstances."

How very astonishing! SHOCKING, IF TRUE.—The Boston Commonwealth asserts that every afternoon from twelve to fifteen United States Senators get so drunk that they are unable to attend to business.

YOLO COUNTY DEMOCRAT.

County Official Paper.
TOWN AND COUNTY MATTERS.

WELLS VS. CISTERNS.—Mr. Editor: At the meeting held last Friday night to organize a Fire Company and a system of defense against fire, some differences of opinion were manifested, but several valuable suggestions were made. As a practical man—knowing little of theoretical details, but earnestly desiring that some speedy action take place—I venture to offer a suggestion, both to the Committee appointed to attend to it, and to the citizens interested. The expense of building large cisterns seems to be the first damper; and the second arises from the suggestion that only two or three such reservoirs—no matter how well placed—would still leave some portions of the town unprotected. My proposition is, that something cheaper and really more generally useful than a cistern can be obtained by digging good-sized wells at the intersection of each cross-street—the expense to be borne by the property-holders immediately benefited. This would be a light tax upon their purses and would give the assurance that at least a small supply of water could be promptly attainable at the commencement of a fire. Every old fireman will tell you that a drop of water, early in the action, is better than a gallon after the devouring element has gained strength and volume. Every resident of Woodland knows how easily and cheaply wells can be obtained, with abundance of water, in any part of town, and at how much less cost than the "insurance" each property-holder in an area might build himself a good well or cistern especially adapted and intended as a part of the defense of the town. With such wells, securely covered, at the intersections of our cross-streets, it would be impossible for a fire to be under way many minutes before the engine and firemen would be fighting it with water from the nearest well; and, if that did not succeed, fire could at least be held in check till other similar wells could be prepared to contribute to the battle. Let our citizens think over this plan, in which all are interested, whether property-holders or not; for it is at least the merit of being easily and cheaply carried into effect.

TRAVELING LECTURER.—Occasionally our citizens enjoy a treat in availing themselves of the opportunity of listening to the eloquent efforts of some one who comes heralded among us as a public lecturer. More frequently, however, audiences assembled for such purposes have reason to feel disappointed and as a consequence entertain no very excited appreciation of the merit of that class of lecturers generally announced by flaming posters and the bewitching strains of musical accompaniments. Men of ability, coupled with refinement, may, for the sake of competence, be said to be all that the public need in a lecturer who offers instruction and amusement on easy terms, in the shape of "Tickets, one dollar." In the large cities, attend such a lecturer's entertainment and frequently you are delighted and improved by the recollections and the pleasant associations which an easy grace and eloquence—the consummation of perfection. But how is it with us of the lesser interior towns? Certain individuals have an idea that it is their duty to lecture for the refined audiences of larger cities, they may go out to the small towns and practice upon villagers that "preaching hands." Still they acquire lecturing, by force of habit, as a trade. They act on the principle of the dwarf, sickly whale, that descended his tribe and went among the sardines in order that he might still be considered a whale. Why should a fellow imagine that the intelligence, refinement and perceptive faculties of villagers are more blunt and dull than similar qualities in the denizens of large cities?

LYCEUM.—An adjourned meeting was held at the College building, on Wednesday evening, to effect a permanent organization of a lyceum in this place. A constitution and code of by-laws were adopted and the necessary officers elected. T. C. Pockman was elected President for the first term; J. M. Goode and E. E. Baker, Secretaries. The name adopted for the association is the "Yolo Literary Society." Question proposed for discussion at next meeting—"Resolved, That parents should be compelled by law to send their children to school." The next meeting of the society will be held at Temple Hall next Wednesday evening.

NEW STORE.—Another new store has been fitted up on Main street, contributing to the business appearance of that thoroughfare, which has assumed an air of importance never dreamed of by early settlers. We refer to the establishment of Berliner & Co., adjoining Governor's restaurant. The proprietors have opened out a fine stock of cigars, tobacco, pipes, etc., for wholesale and retail sale, also a choice selection of articles of clothing. We wish the new firm success commensurate with their enterprise and energy.

UNITED STATES LAND OFFICE DECISION.—The Marysville Appeal of the 17th inst., says: "The Register and Receiver of the United States Land Office at Marysville have decided the contested pre-emption case of Charles C. Brown vs. Wm. R. Moore and Thomas Heiland in dispute being the southwest quarter of section 23, township 9 north, range 1 east, located in Yolo county. They awarded the land in dispute to contestant Thomas Heiland. This case will, in due time, be forwarded to the Department at Washington for examination."

FIRE COMPANY.—The proposition to organize a fire department in this place seems to have met with the favor of all interested in the future welfare of the town. The various committees appointed at a meeting of the citizens last week, have been actively engaged in their duties, and some of them especially the one on Finance—have met with flattering success. Citizens have subscribed liberally, and present indications point to a speedy organization of a well-regulated fire department.

RAILROAD MEETING.—A meeting of the citizens of this place was held at the Court House, on Saturday evening last, "to adopt measures to procure the extension of a railroad from Davisville through Woodland to Knight's Landing." A committee was appointed to employ canvassers to circulate a petition for presentation to the next Legislature for the passage of a bill authorizing the issuance of county bonds for said purpose.

RAIN.—During a portion of the week an old fashioned storm of wind and rain has visited this section. A large quantity of rain has fallen and the earth is thoroughly saturated. There will be no failure of crops in consequence of a dry season.

ARRESTED.—Cornelius O'Whipple, an insane man, was arrested on Sunday last, a short distance below Washington, and taken to the station house in Sacramento.

JEALOUSY.—A bill has been introduced in Congress by Senator Edmunds, of Vermont, to prohibit persons from holding two offices under the United States Government. It appears that the Radicals are a little fearful that General Grant will not play into their hands. Schofield and Porter, one a General in the army, and the other an admiral in the navy, are spoken of in connection with Cabinet appointments. Knowing that neither of them would resign their positions, the bill of Mr. Edmunds is designed to shut off their prospects for positions in the new Cabinet. Disinterested politicians, these Radical Congressmen are.—(Capital Reporter.)

GOOD EXAMPLE.—The Grass Valley Union relates a case in point, wherein the amenities of life are not disregarded in the intercourse of persons of different political and religious opinions. Speaking of the oldest business firm in that place, the Union says: "This firm has been working together harmoniously for twenty or thirty years, and yet the two members are diametrically opposed to each other in all the questions which agitate the country. One of the partners is a Feinian, the other a staunch Englishman, one is a Catholic and the other a Protestant, one is a Democrat and the other a straight Republican, and the other an ardent Republican. Through all the excitement of the last ten years these partners have been opposed in politics and religion without having their business relations, or their personal esteem for each other suspended or lessened. They are both good citizens, of course, and honest men in all their transactions."

FOUND IN THE BAY.—The body of a Chinese female infant was found floating in the bay at North Beach yesterday morning. The child was apparently about a year and a half old, and had probably been killed by its parents, the same as the one was a few nights since, by being smothered. The body was taken in charge by the Coroner.—(S.F. Times, January 25th.)

THE MORALS OF THE BAY CITY CELESTIALS. seem to be at a low ebb. When their babies cry they kill them. It is estimated that seven-tenths of all adult ailments proceed from a diseased and torpid liver. The biliary secretions of the liver overflow into the stomach, poison the entire system, and exhibit the above symptoms. After a long research, we are able to present the most remarkable cure for these horrid night-mare diseases of the world ever produced. Within one year over six hundred and forty thousand persons have taken Plantation Bitters, and not an instance of complaint has come to our knowledge. It is the most effective tonic and agreeable stimulant, suited to all conditions of life. Inquire of your druggist in regard to it.

ELECTRO-SILICON.—This curious and valuable substance is confidently claimed to be the best article ever discovered for cleaning and polishing Gold, Silver and Plated Ware, and all smooth metallic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

TO HEADS OF FAMILIES.—Are your little ones subject to croup? If so, don't fail to use NEWELL'S PULMONARY SYRUP. A few doses given in time may save the LIFE OF A DANGEROUS CHILD. Do not fail to have it on hand, if you would be safe and free from anxiety.

"IN TIME OF PEACE PREPARE FOR WAR."—So get a bottle of DR. E. COOPER'S UNIVERSAL MAGNETIC BALM, an unequalled preparation for Dysentery, Diarrhea and Cramp, and instantaneous relief for Burns, Bruises and Sprains.

BORN.—Near Cacheville, Jan. 25th, wife of F. Giguere, a daughter.
Near Cacheville, Jan. 25th, wife of Alex. Dinwiddie, a daughter.

DIED.—Near Buckeye, Yolo county, Jan. 26th, E. BERT COOPER, aged 18 years.

The Reasons for Insuring

—IN THE—
NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON.

By the Acts of Massachusetts, incorporated into the General Statutes of 1860 and 1864, a Policy of Life Insurance for the benefit of a Married Woman, or any person or persons specified, goes to their independent of the debts and liabilities of the party who effects the policy.

An Act to Regulate the Forfeiture of Policies of Life Insurance.
Be it Enacted, etc., as follows:

Section 1.—No Policy of Insurance on Life, hereafter issued by any Company chartered by the authority of this Commonwealth, shall be forfeited or become void by the non-payment of premium thereon, any further than regards the right of the party insured therein to have it continued in force beyond a certain period, to value of the policy, when the premium becomes due and is not paid, shall be ascertained, according to the "combined experience" or "actuarial" rate of mortality, with interest at four per cent. per annum, after deducting from such net value any indebtedness to the company or notes held by the company against the insured, which notes if given for premium shall then be canceled, four-fifths of the premium then shall be considered as a net single premium of temporary insurance, and the term for which it will insure shall be determined according to the age of the party at the time of the lapse of the premium, and the assumptions of mortality and interest then made.

Section 2.—If the death of the party occur within the term of temporary insurance covered by the value of the policy, as determined in the previous section, and if no condition of the insurance, other than the payment of premium shall have been violated by the insured, the company shall be bound to pay the amount of the policy the same as if there had been no lapse of premium, anything in the policy to the contrary notwithstanding; provided, however, that notice of the claim and proof of the death shall be submitted to the company within ninety days after the death; and provided, also, that the company shall have the right to deduct from the amount insured in the policy the amount at six per cent. per annum of the premiums that had been forborne at the time of the death.

YOLO COUNTY DEMOCRAT.

A Medley.

By the lake where drooped the willow,
How, brothers row;
I want to be an angel,
And jump Jim Crow.

An old crow sat on a hickory limb
None knew him but to praise:
Let me kiss him for his mother,
For he smells of Schweitzer Kase.

The minstrel to the war has gone,
With the banjo on his knee,
He awoke to hear the sentry shriek
There's a light in the window for thee.

A frog he would a-wooling go,
His hair was curled to kill;
He used to wear an old gray coat,
And the sword of Bunker Hill.

Off in the still night,
Make way for liberty! he cried;
I won't go home till morning,
With Peggy by my side.

I am dying, Egypt, dying,
Sassaparilla don't you cry;
Know how sublime a thing it is,
To brush away the blue-tailed fly.

The boy stood on the burning deck,
With his baggage checked for Troy;
One of the four immortal names—
His name was Pat Malloy.

Mary had a little lamb,
He could a tale unfold;
He had no teeth to eat a hoe-cake,
As his spectacles were gold.

A CLEVER GENTLEMAN, and something of a wag withal, fell a victim to the wiles of "John Barleycorn" recently, and became "sea-sick," if the Hibernian may be allowed, so that he had to anchor in a "fence-corner" and "heave." Holding on to a rail, he poured forth a promiscuous cascade, "tremulous to behold." A sympathizing friend, while passing, feelingly inquired: "Hello, what's the matter? Are you sick?" The victim turned upon him a look in which was concentrated a perfect avalanche of reproachful contempt; and blurted out, between the intervals of his copious upheavals, "Confound you, d'ee-er-pose I'm p-u-pu-king for fun?"

The following florid item is going the rounds of the Eastern press:
"At one time a woman could hardly walk through the streets of San Francisco without having every one pause to gaze at her, and a child was so rare, that once in a theatre, in the same city, where a woman had taken her infant, when it began to cry, just as the orchestra began to play, a man in the pit cried out: 'Stop those fiddles and let the baby cry.' I haven't heard such a sound for ten years." The audience applauded this sentiment, the orchestra stopped, and the baby continued its performance, amid unbounded enthusiasm.

RICHARD was an inveterate chewer of tobacco. To break himself of the habit he took up another, which was that of making a pledge about once a month that he would never chew another piece. He broke his pledge as often as he made it. The last time he saw him, he was taking another chew. "Why, Richard," said I, "you told me you had given up that habit, but I see you at it again." "Yes," he replied, "I have gone to chewing and left off lying."

COUNSELLOR DUNNING was cross-examining an old woman's evidence in a case of assault respecting the identity of the defendant.
"Was he a tall man?" said he.
"Not very tall; much about the size of your Honor."

"Was he well looking?"
"Not very; much like your Honor."
"Did he acquit?"
"A little; but not so much as your Honor."

A MINNESOTA Postmaster, who wished to retain his office, on being asked by Postmaster General Randall whether he had not opposed Mr. Johnson's policy, replied: "No, sir, and I want you to understand that I can change my politics as fast as you, and when I can't keep up, I'll resign."

"I don't like your church government. It isn't simple enough. There's too much machinery about it," says a Baptist to a Methodist. "It is true, we have more machinery than you; but, then, you see, it doesn't take near so much water to run it," says the Methodist.

One of the editors in Reading, (Va.) had a clean shirt, about which he made a brag and abused his contemporaries for having none. It appeared afterward that he had stolen it of a pole from a brother editor, who was in bed waiting for it to dry.

A young Jersey girl recently eloped with an older one to marry another man at the hotel where she had been left while the first lover was off making arrangements for his own speedy union.

The Boston Post says: "A Sunday paper says it is in favor of women voting, if they want to. We should like to see the man who could make them vote, if they didn't want to."

"Nobody ever lost anything by love," said a sage looking person.
"That is not true," said a young lady who heard the remark, "for once I lost three nights sleep."

A young lady who was rebuked by her mother for kissing her lover, justified the act by quoting the passage: "Whatsoever ye would that men should do to you, do ye even so to them."

"Remember who you are talking to, Sir," said an indignant father to a fractious boy; "I am your father, Sir." "Well, who's to blame for that?" said young impertinence, "ta't me."

A TORONTO PAPER declares he is so fond of his sweetheart that he has rubbed the skin from his nose by kissing her shadow on the wall. A hopeless case that.

A TORONTO PAPER says the members of the Legislature wish to go home for the holidays, and kindly adds: "It is a pity the holidays don't last all the year."
